Let us customize a training package to support the needs and goals of your practice.

TRAINING AT YOUR LOCATION, AT YOUR CONVENIENCE

Clinical Training For Prescribers / Ongoing Clinical Training and Support / Staff Training

DONNA WHITE

Author – The Hormone Makeover
Founder – BHRT Training Academy

For over 25 years Donna has been helping medical providers learn to prescribe and implement BHRT into their practice. She can help you streamline the learning process and provide protocols to help you get up to speed quickly. You will have the knowledge you need for successful patient outcomes along with practice implementation tools and resources to save you time and money.

"I definitely recommend Donna White's BHRT Provider's Program to any clinician new to BHRT or experienced in BHRT but wanting to enhance their knowledge or grow their practice. The protocols are very easy to use and very thorough and easy for clinicians to go back and reference. If you are looking for a training program that's thorough and concise, I think you'll find the BHRT Provider's Program the way to go."

Diana Williams, MSN, RN, FNP-C Strategic Wellness Center
